INTIG-400PR NEXT GENERATION IGBT INVERTER DC PULSE TIG/MMA WELDER

- Exact digital current and voltage preset, it makes the machine be easy operated.
- ♦ High voltage arc striking and welding cable can be lengthened to 30 meters.
- ◆ Advanced IGBT inverter technology, high working frequency, high working efficiency and energy saving.
- ◆ One machine with TIG/MMA welding.
- ◆ Independently adjustable of pre-flow and post-flow, easy operation.
- ◆ Independently adjustable of upslope and downslope, effectively control welding process.
- High frequency and low frequency of pulse frequency, which is suitable for manual and automatic welding.
- With arc ending adjustment, it reduces the working intensity greatly.
- With good protection of under voltage, over voltage and over current, it makes the machine safe and reliable.
- With tri-proof design, it ensures working stable and reliable when in kinds of adverse circumstances.
